

### B2.1.1 Inspection and Maintenance Schedule

<b>Farm Name:</b> Illustrative Farm	<b>Operator:</b> Mr P Fffff
-------------------------------------	-----------------------------

Records are kept of inspection and maintenance of farm structures and plant.

Staff report any problems encountered and actions taken on a daily basis directly to the pig unit manager. A record is made in a log book kept in the Farm Office. This is reviewed daily by the person with overall responsibility for the site for that day and appropriate action implemented.

Structures and equipment are inspected annually, the inspection and maintenance programme covers the following areas: -

- Building structures and yards. Includes, structural integrity, water system, electrical systems (including ventilation and fail-safes), roofs, drainage systems, gutters and downpipes.
- Emergency generator
- Slurry system including reception pit, tanks and associated pipework.
- Dirty water storage tank
- FYM midden or storage area
- Medicines / chemical stores, including bunding and security arrangements.
- Fuel storage tanks and pipework, including bund integrity and security arrangements
- Feed storage silos, bins and tanks including bund and collision protection integrity as applicable
- Feed delivery pipework/systems
- Incinerator
- Swales/soakaways

The full annual inspection and maintenance schedule is detailed in the tables that follow:

YEAR: - \_\_\_\_\_

FACILITY	Reference on Site Layout Plan <sup>1</sup>	Remedial work required and date noted	Date remedial work completed	Signature
FYM midden				
Dirty water tank				
Dry sow/service house				
Dry sow/service house feed bin				
Farrowing house				
Farrowing house feed bin, including collision protection				
1 <sup>st</sup> stage flatdecks				

FACILITY	Reference on Site Layout Plan <sup>1</sup>	Remedial work required and date noted	Date remedial work completed	Signature
2 <sup>nd</sup> stage flat decks				
Finishing house				
Mill/mix building				
Mill/mix dry ingredient silo's				
Mill/mix co-product storage tanks (external), including bund				
Liquid feed system delivery pipes				
Incinerator and associated area				

FACILITY	Reference on Site Layout Plan <sup>1</sup>	Remedial work required and date noted	Date remedial work completed	Signature
Above ground slurry store, including collision protection				
Slurry store reception pit				
Slurry pumping pipework				
Office				
Store				
Medicine store				

FACILITY	Reference on Site Layout Plan <sup>1</sup>	Remedial work required and date observed	Date remedial work completed	Signature
Chemical store				
Straw barn				
Wheel wash				
Front yard				
Concrete yard areas between buildings				
Diesel tank, including bund				
Swale				

FACILITY	Reference on Site Layout Plan <sup>1</sup>	Remedial work required and date noted	Date remedial work completed	Signature
Soakaways – east side of buildings				
Emergency generator, including fuel tank & pipework.				
Water tank - borehole
