

### B2.1.1 Inspection and Maintenance Schedule - LAYERS

<b>Farm Name:</b> ABC Poultry Farm	<b>Applicant:;</b> Mr J Smith
------------------------------------	-------------------------------

Records are kept of inspection and maintenance of farm structures and plant.

Staff report any problems encountered and actions taken on a daily basis directly to the unit manager. A record is made in a log book kept in the Farm Office. This is reviewed daily by the person with overall responsibility for the site for that day and appropriate action implemented.

Structures and equipment are inspected annually, the annual inspection and maintenance programme covers the following areas: -

- Building Structures and Yards. Includes, structural integrity, water system, electrical systems (including ventilation and fail-safes), roofs, drainage systems, gutters and downpipes.
- Emergency Generator
- Manure systems including pits, other stores, belts, drying and conveying systems.
- Dirty water storage tanks
- Medicines / chemical stores, including bunding and security arrangements.
- Fuel storage tanks, including bund integrity and security arrangements
- Feed storage silos, bins and tanks including bund and collision protection integrity as applicable
- Feed delivery systems
- Incinerator
- Swales/constructed wetlands/soakaways

The full annual maintenance assessment schedule is detailed in the tables that follow.

YEAR: - \_\_\_\_\_

<b>FACILITY</b>	<b>Location on Site Plan</b>	<b>Remedial Work Required and date noted</b>	<b>Date remedial work completed</b>	<b>Signature</b>
