

PROTECT YOUR HERD FROM TB

Before you buy stock to add to your herd, you should ask the seller or your auctioneer about the animal's TB history. This includes:

- The date of the animal's last pre-movement test (if applicable)
- The date of the seller's last herd test
- If the herd has ever had a TB breakdown, the date the herd achieved official TB Free status

**Informed and responsible decisions can reduce the
risk of TB affecting your herd**

Further guidance is available in the Risk-Based Trading leaflet, which is available online at www.tbfreeengland.co.uk

BOVINE TB CAN SERIOUSLY DAMAGE YOUR BUSINESS
