

FARMING NEEDS YOU

Step into the next
generation of farmers

Published three times a year, #studentfarmer wants agricultural students to know that the NFU is right behind them and that farming is the right choice for their future career. It's all about showing how dynamic and innovative agriculture can be, and showcasing the young people within it along the way.

#studentfarmer is delivered to agricultural colleges three times a year in January, April and September, straight to students, considering their next step.

It is also published as an e-edition online at issuu.com/studentfarmer
