

SIGN THE FOOD STANDARDS PETITION

Do you want the food you eat to continue to be produced to the world leading standards you've come to expect, even in the toughest global circumstances?

The UK Government has the opportunity right now to put into law rules that prevent food being imported to the UK which is produced in ways that would be illegal here.

Sign our food standards petition and ask the UK Government to ensure all food imports are produced to the same high standards as British farmers.

Simply search '**NFU Food Standards petition**', or type in bit.ly/nfupetition
